Technical Skills

Languages: Ruby, SQL, C#, JavaScript(ES6), HTML5, CSS3.
Frameworks: Ruby on Rails, React, Redux, jQuery, Bootstrap.
Testing: Jasmine, Jest, RSpec, Capybara, MiniTest, Selenium.
Databases: PostgreSQL, MySQL, MongoDB, MSSQL, SQLite3.
Other: Webpack, Heroku, Nodejs, Git, GitHub, GitLab.

Relevant Experience

Technical Support Engineer and Mentor   **March 2019 - Present**
Microverse, Remote
- Completed more than 200 code reviews in Ruby, SQL, Ruby on Rails, Javascript and Reactjs for 80+ students.
- Implemented additional stretch requirements on different code review requests, thus increasing student performance and improving project quality.
- Mentored and supported 4 students on a 1:1 basis with their technical struggles and difficulties during their project building.

C# Developer Intern   **March 2018 - June 2018**
PBC, Prishtina Rep. of Kosovo
- Developed and maintained a Web Scraping Library that scraped more than 400 local news articles every minute.
- Designed the database and then implemented it, saving 2000+ articles every day.
- Implemented a simple comparison algorithm to stop data redundancy.

Education

Microverse, Certificate   **January 2019 - December 2019**
- Spent 1200+ hours learning HTML, CSS, Javascript, Ruby, Ruby on Rails and React while simultaneously developing real-world projects.
- Learned via remote pair programming every weekday from 8 am to 5 pm.
- Provided help and guidance to my team members and other students on implementing their projects, and also provided general help on software development.
- Developed a thorough understanding of algorithms and data structures and solved 70+ coding challenges.

Illiria College, BSc. Of Applied Computer Science   **October 2017 - Present**
